## 1.7 VENUE

Kasai Canoe Slalom Centre is the venue of competition and official training prior to the test event. This is a new facility in the Tokyo Bay Zone, which is expected to attract vast public interest and involvement during the Tokyo 2020 Games, and to do so as a sporting recreational facility legacy for the city in years to come.

The field of play at The Kasai Canoe Slalom Centre consists of competition course and warm-up course. The competition course is 250m of white water, with a total drop of 4.5m from the start line to the finish line. The warm-up course connects the competition course and consists of 185m of flowing water. The competition course will be presented in accordance with ICF Canoe Slalom Competition Rules.

Facilities on venue during these games will be limited to a basic race organisation provision with technical video service, boat repair tent and team tent. A modest amount of repair materials will be provided at test event period.

## 1.8 RADIOS

NFs can use their own radios. However, any users of radio equipment at the venues must make a radio equipment utilisation and coordination plan in advance. For all radio equipment to be used at the venues, the spectra must be coordinated and the equipment must be authorized to avoid harmful interference. Any user wishing to use wireless equipment must apply for radio frequencies coordination by submitting their equipment specifications with the Excel sheet (see Appendix 2).

Please make sure to submit it by deadline. Application after the deadline will not accepted.

## 5. USEFUL INFORMATION

### A. ABOUT TOKYO

Japan is situated in Northeastern Asia between the North Pacific and the Sea of Japan. The area of Japan is 377,944m<sup>2</sup>. It consists of up to 6,852 islands, including four of the larger main islands. The population is over 126 million and most Japanese reside in densely populated urban areas such as Tokyo.

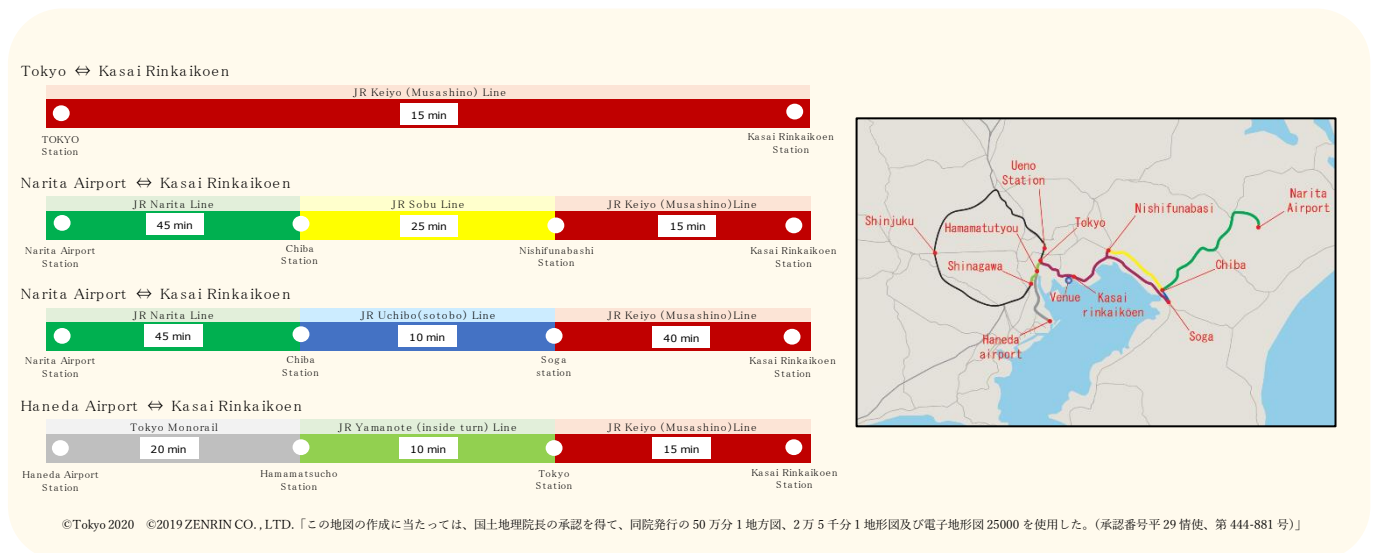

One of Japan's attractions is the beautiful nature found across the country. The variety of scenery gives Japan a completely different impression with each season. For centuries, the seasons have been deeply related to daily Japanese life in many ways, leading to a great sensitivity to seasonal occurrences across the population. On the surface, Japan appears exceedingly modern, but travelling around it offers numerous opportunities to encounter the country's traditional culture. Japanese culture such as Zen rock gardens, Matcha, and Sushi keeps attracting millions of visitors each year and is fast spreading its popularity around the world.

Tokyo is one of Japan's 47 prefectures, and its capital. It consists of 23 central city wards, multiple cities, towns and villages west of the city center. The Izu and Ogasawara Islands are also part of Tokyo.

Today, Tokyo offers a seemingly unlimited choice of shopping, entertainment, culture and dining to its visitors. The city's history can be appreciated in many excellent museums, historic temples and gardens. Contrary to common perception, Tokyo also offers numerous attractive green spaces in the city center and within relatively short train rides to the outskirts.

### B. TRAINS (to Kasai Canoe Slalom Centre)

Trains are a 'local experience' and frequent. Departure: TOKYO Station by Keiyo line, - get off at Kasai rinkaikouen after station 15 minutes train journey-. After the station 15 minute by walk to the venue.
